BUILDING RELATIONSHIPS ★ BUILDING COMMUNITY

**VOTE APRIL 4**  
**GREGG BACH**

FOR MEQUON ALDERMAN 5TH DISTRICT

## Nonpartisanship Matters

Dear Neighbors,

Local offices across the country were made nonpartisan over a century ago to prevent machine politics from interfering with essential services. Parties would hand out local positions for the benefit of maintaining power rather than doing what local government needs to do.

I decided to run for Alderman to represent and build relationships with all 5<sup>th</sup> District residents and stick to the nonpartisan platform. I'm tired of partisan politics in local elections. While we cannot control the unfortunate polarization at the State and National levels, we can control what happens at the local level. I think we can all agree that we want a great Mequon for our families and future generations. We care about public safety, being fiscally responsible, safe roads, public works, great parks, and events where families can come together to celebrate and build community. That's about as nonpartisan as you can get!

My opponent has an unfortunate history of bringing partisan politics into the local arena. His positions and style divide people and bring polarization to the community. **Regardless of personal opinion, an elected official should not be interfering with other local governmental services he or she has no purview over.**

I am thrilled to have supporters from all political orientations. **I have plenty of neighbors on polar-opposite ends of the political spectrum with Bach signs in their yards!** I am able to do this because I treat each situation on its own merit and how it will affect the community.

Thank you for your support!

Gregg
